

To all the members of the PTA,

On behalf of the Local Governing Body, I just want to say a huge and heartfelt “thank you” for all your fund raising efforts this year and the generous gift of £1200 to the school.

This money has been divided amongst all the classes and will help to keep down the cost of class visits, something that all parents would welcome at this time.

In addition, the use of funds specifically targeted at pupils having access to school visits, is one that echoes with an aim of the governing body. After such a long time of restricted activity, the LGB is keen for our pupils to start to engage further with out of school experiences, to help deliver a richer and more varied school experience for all our children.

Your hard work will help enormously towards this.

We know that your time is often under pressure, with your own work and family commitments, and, like the governing body, it can often feel like you are a very small group. But between us all we can make a difference.

So thank you once again and I hope next term I might be able to come to one of your meetings to thank you all personally.

With kind regards

Helen Webb

Chair of LGB
